10 Rakino Way,
Mt Wellington

- 2** Screw wall mount into wall using screw and anchor (mounting tacks facing outward).

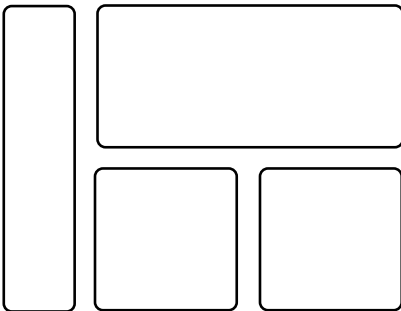

- 3** Align panel in desired position over wall mounts and firmly push panel into mounting tacks.

Preferred placement for adhesive strips (as an alternate to built-in sawtooth hooks)

Your preferred Sound Stones (Wall) mounting method will depend upon the application environment.

The surface of the wall used for hanging can play a large factor in your decision.

All complete!
We hope you enjoy your new
SoundSorb Acoustic Panels (Wall)!

If you have any questions on your SoundSorb Acoustic
Panels (Wall), please contact us at
